---

As you know, we have \$1M for FY 1989. I propose the following subs for accounting purposes.

- a. SRI R&D  
This will include the time spent by the professional staff in both doing the research and preparing reports.
- b. SRI administration, management and support to professional staff
- c. Consultants
- d. Sub-contracts
- e. Supplies and equipment

This, at this time, is only a suggestion. Let's talk about it.
